Current Situation: The King Fire is burning in steep terrain in the South Fork of the American River Canyon, Silver Creek Canyon, and the Rubicon Canyon, north of the community of Pollock Pines. The fire has crossed into Placer County and has burned onto the Tahoe National Forest. The fire may become very active today with the return of high temperatures and lower humidity. The spread is expected to be predominantly towards the northeast due to the southwest wind. The main fire edge is spreading north along the ridge between French Meadows Reservoir and Hell Hole Reservoir and into the 2001 Star Fire scar, where lighter fuels could naturally slow fire spread. Crews are clearing brush and vegetation in the scar area to make an even more effective barrier. Crews have begun work on contingency lines to the north of the fire, clearing brush from Soda Springs Road, so it can serve as a containment line, if needed.

The King Fire is being managed in Unified Command with CAL FIRE, Eldorado National Forest, and the El Dorado County Sheriff's Office. Federal Team CIIMT 5 (Jim Giachino) will be coordinating firefighting operations of Zone 1 (north portion) of the fire, and CAL FIRE IMT 5 (Kevin Smith) took over management of Zone 2 (southern portion) of the fire. The damage assessment of the White Meadows area continues, currently 10 residences and 22 other type structures were destroyed.
