Based upon information provided by the Woodbury Fire Incident Management Team anticipated weather over the next few days, including low humidity, high temperatures, and increased winds, the Gila County Office of Emergency Management announces a SET notification for Roosevelt and Roosevelt Lake area residents. This is the middle step in the Ready, Set, Go wildland fire action plan procedures.

Although these communities are not immediately threatened, as the fire is still 11 miles away from the Roosevelt area, predicted weather may cause increased fire activity in the coming days. The SET notification is simply a preparatory measure.
