<b>Assisting Agencies:</b> Placer County Sheriff's Office, El Dorado County Sheriff's Office, and local fire departments from across the region				

### Current Situation:

**A public meeting will be held tonight, June 30, 2016 at the Golden Sierra High School in Garden Valley at 7pm. Fire staff will give an informational update and answer questions from the public. Further public meetings are planned; stay tuned for locations and times.**

Yesterday, crews on the north side of the Middle Fork of the American River worked to construct containment line on the west and southwest sides of the fire, constructing line from Peachstone Gulch north up the Western States Trail to protect the communities of Todd Valley and Foresthill. Work will continue on that today. Contingency lines are also being constructed to further protect those communities.

On the southside of the American River, Spot fires along the south side of Otter Creek occurred yesterday with the afternoon arrival of upcanyon winds. Steep, inaccessible terrain in Otter Creek made firefighting in the drainage too dangerous, and crews will work today to build indirect from Fords Bar south to Bottle Hill and then east along the Hornblend Mountains, towards Jakeys' Hill. The firefighters will also scout and construct line northwest from Jakeys Hill northwest toward Buckeye Point, tying back into the Middle Fork of the American River to protect the community of Volcanoville. As of 9am this morning, a VOLUNTARY EVACUATION has been issued for the community of Volcanoville.

Weather today is predicted to be similar to yesterday, with hot, dry conditions prevailing. Afternoon winds are predicted to be similar to yesterday.
