Unified Command: NorCal Interagency Incident Management Team 2 is managing the fire on behalf of CAL FIRE and the U.S. Forest Service.				
Assisting Agencies: Placer County Sheriff's Office, El Dorado County Sheriff's Office, and local fire departments from across the region				

Current Situation:

A public meeting will be held tonight night, July 1, 2016 at the Foresthill High School at 7:00 PM. Fire staff will give an informational update and answer questions from the public. Further public meetings are planned; stay tuned for locations and times.

Access to the Middle Fork of the American River From Oxbow Reservoir put in to Ruck-A-Chucky take out is temporarily closed to protect firefighter and public safety. Please see the full closure order for more information.

As of 7am this morning, no structures have been damaged or destroyed. At this time, all evacuations are still in effect. Please watch Placer and El Dorado County sheriff office websites for the most updated evacuation information. (Placer County placer.ca.gov/emergency/trail-fire; El Dorado County pio.edso.org/).

On the Placer County side, crews were able to complete and strengthen lines overnight to prevent fire spread up Peachstone Gulch, and contingency lines are in place to protect the community of Todd Valley.

Crews on the south side of the American River made good progress overnight constructing dozer line south adjacent to New Orleans Gulch. Their goal today is to tie line back towards Bottle Hill. The fire was most active overnight on the Hornblende Mountains, bumping the road along the ridge. Fire is established in Otter Creek, and crews overnight made good progress on constructing line from the Otter Creek drainage north to Jakey's Hill, and then to Buckeye Point and

ultimately to the river. A priority today is to complete and strengthen that line to protect structures in Volcanoville. Structure protection assessment will also be occurring in the Volcanoville and Buckeye areas.

The fire continues to burn in extremely steep, rugged terrain. Crews may take advantage of more favorable night time conditions to conduct strategic firing operations. Weather conditions are predicted to remain about the same through the weekend, with upslope, up canyon winds in the late morning through early evening, and downslope, down canyon winds at night.

Evacuations:

Placer County Mandatory Evacuations:

All homes east of Green Ridge Rd to Oakwood Ln to Nugget Dr, Skyview Terrace Mobile Home Park, Oak Wood Ct, Vinewood Ct, Trail Head Ct, Green Pine Ct, Alton Trail Ct, Gray Ct, Tevis Ct, and White Tail Ct. Homes to the west of the above listed are under an advisory evacuation order.
