Current Situation:

A public meeting will be held on Saturday, July 3, 2016 at the Golden Sierra High School in Garden Valley, CA at 7pm. Further public meetings are planned; stay tuned for locations and times.

On the Placer County side, crews were able to complete and strengthen lines to prevent fire spread up Peachstone Gulch, and contingency lines are in place to protect the community of Todd Valley. Placer county residents who had evacuated will re-populate the area at 9 pm. Please bring ID to pass the checkpoints as only residents are allowed into the area.

The fire continues to be active in the afternoon in the Otter Creek drainage on the south and east sides of the fire. The fire made a run to the east up Jakey's Hill toward Volcanoville. Fire activity lessened in the evening. Crews constructed and improved dozer and handlines on both the south and east sides of the fire. On the south side of the fire, north of Bottle Hill Road defensive firing operations were accomplished in the Otter Creek drainage to reinforce the constructed lines by removing fuel between the road and the active edge of the fire. Crews assessed and worked on structure protection measures in the Volcanoville and Buckeye areas.

The only campground directly affected by the fire is Dru Barner in the Georgetown Ranger District which is within the closure area. No roads or campgrounds are closed in the Tahoe National Forest due to this fire. Have a safe Fourth of July weekend.

Access to the Middle Fork of the American River From Oxbow Reservoir put in to Ruck-A-Chucky take out is temporarily closed to protect firefighter and public safety. Please see the full closure order on the website for more information.

Weather conditions are predicted to remain about the same through the weekend, with upslope, up canyon winds in the late morning through early evening, and downslope, down canyon winds at night. Expect smoke in the surrounding canyons from this fire.
