<b>Structures Threatened:</b> 17,488		<b>Structures Damaged:</b> 34
<b>Single Residences Destroyed:</b> 455	<b>Commercial Properties Destroyed:</b> 11	<b>Other Minor Structures Destroyed:</b> 166

## CURRENT SITUATION

### Situation Summary:

Incident Information

Overall, the fire activity through the night was moderate, with some significant terrain-driven runs in Division W. The up-canyon southwest winds decreased and moderate overnight humidity recovery allowed firefighters to engage in direct control tactics while advancing indirect line construction. We continued to have passive crown fire runs in the Northeast and in steep drainages, causing small spot fires to develop throughout the evening.

To better provide public and firefighter safety due to extreme fire conditions throughout Northern California, and strained firefighter resources throughout the Country, the USDA Forest Service Pacific Southwest Region is announcing a temporary closure of nine National Forests. This closure will be effective on August 22, 2021, at 11:59 p.m. through September 6, 2021, at 11:59 p.m. The closure order can be found at <https://tinyurl.com/USFSClosure>.
