ASSIGNED RESOURCES									
Engines:	89	Water Tenders:	45	Helicopters:	8	Hand Crews:	26	Dozers:	33
Other:	58			Total Personnel:	1,555				
CURRENT SITUATION									

Firefighters observed an increase in active fire today in the Strawberry Creek and Caples Creek areas today due to the warm, dry weather. Gusty winds over the fire have caused pine needles and small branches to fall into lingering heat sources causing them to flare up. In anticipation of the weather conditions, crews were strategically staged, ready to engage in the areas most impacted by high winds.

Today's increased fire activity was anticipated. The California Interagency Incident Management Team 12 staffs a Fire Behavior Analysts who provides fire behavior and fire activity forecasts for a three period to assist in current and near term strategic operational planning. Based on these forecasts, and in anticipation of the increased fire activity, the team placed orders for additional firefighting resources including 10 additional fire engines and five Type One Interagency Hotshot Crews. Three of these Hotshot crews will begin working on the fire tomorrow. Low humidity levels and gusty winds will continue to create challenging fire conditions for the next several days.

For residents returning to the Highway 50 corridor, safety information packets are available from the El Dorado County Sheriff's Department and can be picked up at their offices at 200 Industrial Drive in Diamond Springs.

USFS FOREST CLOSURE INFORMATION

- Eldorado National Forest:** The Eldorado National Forest forest-wide closure (03-21- 14) remains in effect until September 30. Access and orders will be refined over time. More information: <https://www.fs.usda.gov/eldorado/>

- **Lake Tahoe Basin Management Unit:** Backcountry Closure [Forest Order 19-21-07 including maps](#) - in effect through October 20,2021
- **LTBMU:** Lake Tahoe Basin Management Unit Caldor Fire Emergency Closure (19-20-06) has been extended for the following areas: Desolation Wilderness, Meiss Country, Barker Pass and McKinney/Rubicon through December 31, 2021. Access and orders will be refined over time.

A **Burned Area Emergency Response Team (BAER)** continues evaluating the Caldor Fire area. This is a rapid assessment of burned watersheds by a BAER team to identify imminent post-wildfire threats to human life and safety, property, and critical natural or cultural resources on National Forest System lands and take immediate actions to implement emergency stabilization measures before the first post-fire damaging events.
