Staffed 8:00 am to 6:00 pm

For Immediate Release: August 10, 2012 @ 12:00 pm

## Lost Fire Information

### Lost Fire Operations Shoots a Video and Posts to YouTube

On August 7, 2012, NorCal Team 2 Operations personnel shot a fire video that follows a VLAT (Very Large Air Tanker) retardant drop on the Lost Fire that is located approximately 20 miles southeast of Eagleville, California. The video also shows the Bureau of Land Management (BLM) Folsom Lake Veteran's Hand Crew as they strengthen and hold a dozer line.

“These efforts were instrumental to the success we are currently experiencing,” said Tim Fike, NorCal Team 2 Deputy Incident Commander.
