Email: 2021.beckwourthcomplex@firenet.gov

Beckwourth Complex Update: July 21, 2021

Beckwourth Complex	Acres	Percent Containment	Total Acreage	Overall containment	Total Personnel
Dotta	594	100%	105,670	90%	1,015
Sugar	105,076	90%			

Resources: 19 crews, 41 engines, 5 helicopters, 9 dozers, 21 water tenders

Current Situation: Movement of the fire is not expected outside its current perimeter. Crews are making good progress finding and extinguishing areas of remaining heat that are within 100-300 feet from the containment line. Where the fire is contained, crews are continuing fire-suppression repair work as well as removing excess fire hose and equipment. As containment continues to increase, firefighting resources are being reassigned to other incidents or returning home for rest before mobilizing to other incidents. Smoke from the Dixie Fire continues to spread across large portions of northeastern California and western Nevada.

The Dotta Fire—part of the Beckwourth Complex—is now 100 percent contained. Occasional smoke might be visible from smoldering trees, but they are not close to the fireline and pose no threat to containment lines. Firefighters will patrol the fire perimeter daily.

Evacuations: Check your county’s web and social media pages for current evacuation information.

- Plumas County: [Plumas County Sheriff's Office - Home \(facebook.com\)](https://www.facebook.com/plumascountysheriff)
- Lassen County: [Lassen County Sheriff's Office | Facebook](https://www.facebook.com/lassencountysheriff)

Road and Forest Closures: Highway 395 is open. However, National Forest System lands and roads in the fire area are closed under Plumas National Forest Order No. 05-11-01-21-12. View the order and map: <https://inciweb.nwcg.gov/incident/article/7601/60733/>. Monitor Caltrans's District 2 website (<https://dot.ca.gov/caltrans-near-me/district-2>) or Twitter feed for current highway-closure information.
