**Smoke**

A weather system passed through yesterday leading to an earlier break in the marine layer and active fire behavior. Today should return to a more typical weather pattern and later marine break. The coastal areas can expect good air quality conditions in the morning before moving into moderate and USG in the afternoon. Inland areas will see greater smoke impact and can expect overall unhealthy air quality with periods in very unhealthy.

**Notes**

In areas experiencing sustained dense smoke even healthy people will start feeling effects from the smoke. Limit outdoor activities and watch out for each other.
