

Smoke Outlook for 10/25 - 10/26
NW California - Red Salmon Complex
 Issued at: 2020-10-25 07:40 PDT

Special Statement

A Red Flag Warning begins this morning at 11:00AM through 5:00PM tomorrow.

Fire

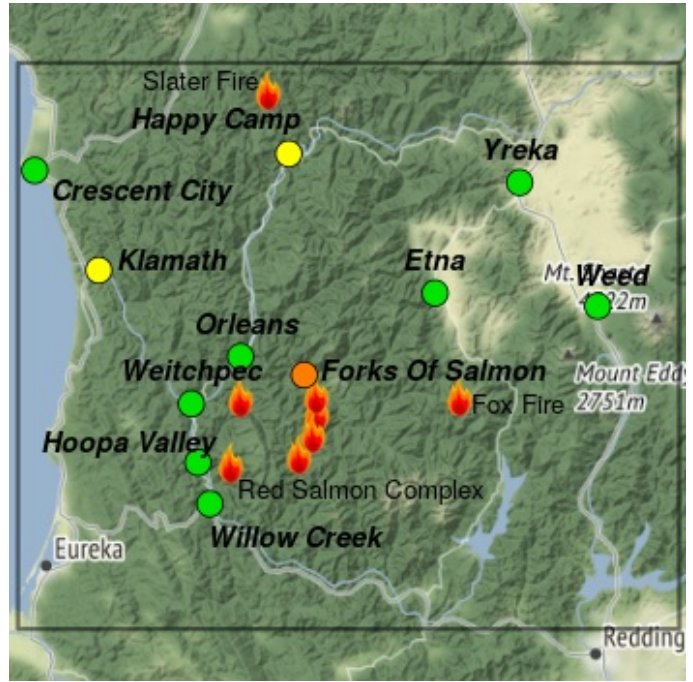

The Red Salmon Complex is 143,644 acres and 75% contained. The fire was quiet last night as pockets of fuel burn within the interior. Leaf litter and needlecast provide continuity between fuels allowing for low intensity understory burning to continue as well. Colder temperatures are expected today into tomorrow.

Smoke

Lingering smoke in the fire perimeter continues to keep air quality poor near Forks of Salmon with levels up to Unhealthy. Orleans, Weitchpec, Hoopa, and Willow Creek will continue to see Good to Moderate conditions and Klamath will remain Good until later in the day when Moderate to Unhealthy levels could occur. Other areas near the fire may also see greater impacts in the afternoon as smoke lifts and moves out. Any increases in fire activity may increase smoke production.

Other

This is the final outlook for the Red Salmon Complex. More smoke information can be found on the Fire and Smoke map (fire.airnow.gov) and other outlooks are posted on the California Smoke Blog (californiasmokeinfo.blogspot.com)

Daily AQI Forecast* for Oct 25, 2020

Station	Yesterday hourly	Sat 10/24	Forecast* Comment for Today -- Sun, Oct 25	Sun 10/25	Mon 10/26
Crescent City	6a noon 6p	●	Air quality expected to remain good.	●	●
Klamath		●	Good to USG conditions expected later in the day/overnight.	●	●
Yreka		●	Air quality expected to remain good.	●	●
Etna		●	Air quality expected to remain good.	●	●
Weed		●	Air quality expected to remain good.	●	●
