### FOR IMMEDIATE RELEASE

## Little Valley Fire

**This will be the last evening update for the Little Valley Fire. Morning updates will continue daily as needed.**

**Washoe Valley, NV** – Due to the hard work by firefighters and help from Mother Nature the Little Valley Fire is now 100% contained. Acres remain at 2291 and are not expected to change. The cause of the fire is still under investigation.

Firefighters will continue to reinforce the fire line perimeter, grid the area for hot spots, and continue to mop-up to ensure no fire growth occurs and the existing footprint of the fire does not change.

A transfer of command is scheduled to occur on Friday morning October 21, 2016 from Martin's Type 1 Great Basin Incident Management Team to a local Type 3 incident management organization.

All roads are now open.

For fire information please call 775-782-1429.
