

Smoke Outlook for 7/26 - 7/27
Crater Lake Area Timber Crater 6 Fire
 Issued at: 2018-07-26 14:41 UTC

Outlook for Crater Lake Area

Special Statement

Numerous fires are contributing to poor air quality in the area. Avoid exposure when possible by limiting outdoor activities. Consider relocating to cleaner air if possible.

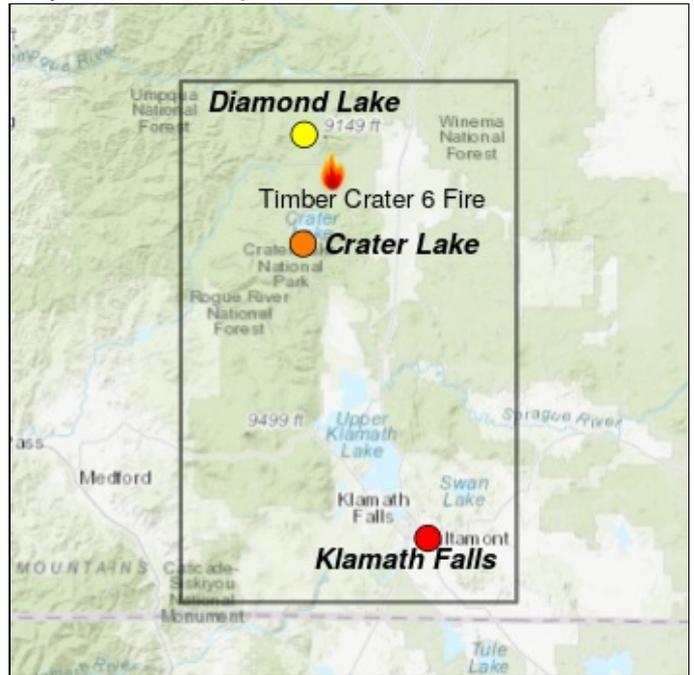

Fire

A slight increase in fire behavior is anticipated today across the area. If wind speeds increase, the potential for significant fire growth is probable; otherwise expect moderate to active fire behavior. Ongoing burnout operations will add to fire growth.

Smoke

Smoke from the Timber Crater 6 fire is likely to disperse to the Southeast toward Klamath Falls. Drift smoke from multiple fires nearby continues to impact the Crater Lake area. Air quality is expected to have the worst conditions in the late afternoon / early evening with smoke subsiding overnight and throughout the morning. Smoky conditions are likely to persist near Klamath Falls.

Daily AQI Forecast for Jul 26, 2018

Station	Yesterday hourly	Wed 7/25	Forecast Comment for Today -- Thu, Jul 26	Thu 7/26	Fri 7/27
Diamond Lake			Moderate conditions with short duration unhealthy for sensitive groups.		
Crater Lake			Worst conditions likely between 3 pm and 7 pm.		
Klamath Falls			Unhealthy conditions likely to persist.		

Issued 2018-07-26 14:41 UTC by Adam Simmons 530-436-6722

Air Quality Index (AQI)	Actions to Protect Yourself
Good	None
Moderate	Unusually sensitive individuals should consider limiting prolonged or heavy exertion.
USG	People within Sensitive Groups* should reduce prolonged or heavy outdoor exertion.
Unhealthy	People within Sensitive Groups* should avoid all physical outdoor activity.
Very Unhealthy	Everyone should avoid prolonged or heavy exertion.
Hazardous	Everyone should avoid any outdoor activity.

Disclaimer: Forecasts may be wrong; use at own risk. Use caution as conditions can change quickly. See your health professional as needed. Smoke sensitive groups should take appropriate precautions.
