

Smoke Outlook for 8/01 - 8/02
South Central Oregon - Bootleg Fire and vicinity
 Issued at: 2021-08-01 07:54 PDT

Special Statement

A Red Flag warning will go into effect today starting at 2:00pm PT, ending at 10:00pm PT. Lightning could spark new fires and put more smoke into the air. More information [here](#).

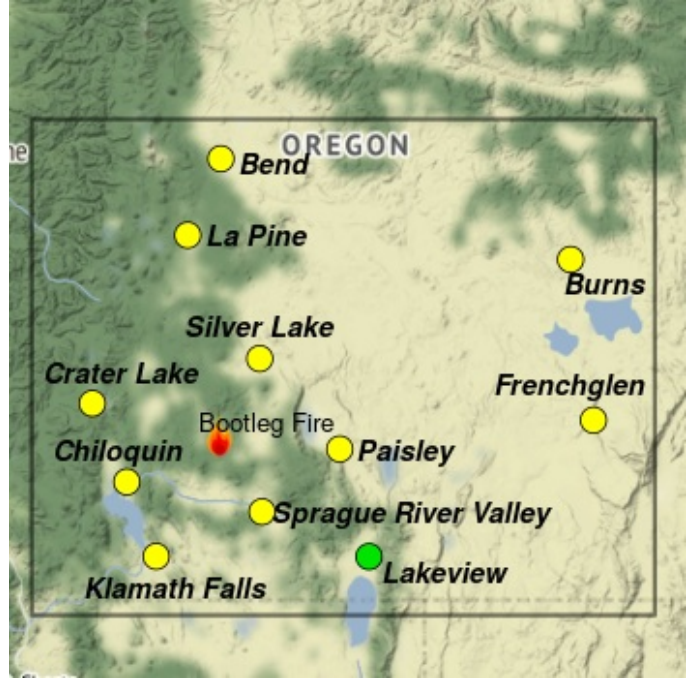

Fire

The Bootleg fire is at 413,762 acres and is 74% contained. There are still active pockets within the fire's perimeter. Work and concerns continue to be on the northern side as operations continue to suppress a run into both the Winter Rim and the Yamsey Semi-Primitive Area.

See additional fire information [here](#).

Smoke

Light winds today should limit most smoke transportation. Overall, despite a lot of moderate forecasts on the map, it will be on the lower end of that level, so today should be a good day to enjoy the outdoors. Hotter, drier, and windier conditions could start as early as Tuesday, which may have an impact on the fire's behavior, consequently putting more smoke into the air.

Daily AQI Forecast* for Aug 01, 2021

Station	Yesterday hourly	Sat 7/31	Forecast* Comment for Today -- Sun, Aug 01	Sun 8/01	Mon 8/02
Burns	6a noon 6p	●	Generally good to moderate air quality today.	●	●
