Sunday, July 27, 2014 – 8:00 a.m. PDT Fire Status Update

Fire	Acres	% Contained	Total Personnel
Total Logging Unit Fires*	10,480	80	1303
Bear Butte 2-North	3847	50	
Haily Butte	108		
Camas Prairie/Logging Unit	6408		
Skyline	116		

*Fluctuation/reduction in acreage reflects a more accurate representation of mapping.

News & Highlights for the Logging Unit Fires

Firefighters again made excellent progress for all areas of the Logging Unit Fires with support from aerial resources.

Oregon National Guard helicopters are demobilizing at end of shift today. The Confederated Tribes of Warm Springs, Bureau of Indian Affairs, and the firefighters, greatly appreciate the excellent air support provided for the duration of this incident. Rising temperatures and dropping humidities will continue and may increase fire behavior. There is potential for reburn activity within the interior of the fire lines; smoke plumes may occur as a result.

There is a potential of "dry" thunderstorms developing late this afternoon. Additional thunderstorm activity is predicted for the next several days. Firefighters are poised to respond to new starts; fire behavior on new starts is expected to be moderate.

Resources will continue to demobilize as suppression objectives are met. Starting tomorrow, motorists traveling on Hwy 26 can expect additional heavy equipment traffic on the roadway.

Road and area closures remain in effect for Confederated Tribes of Warm Springs lands (see below).

Six interagency hotshot crews, thirty-three 20-person hand crews, 67 engines, 21 dozers and 23 water tenders are currently assigned.

Four National Guard helicopters (2 Blackhawks and 2 Chinooks), two heavy helicopters, 1 medium and two light, plus two fixed wing aircraft, remain available for air support. Clear skies and light winds will allow for full air support in the manner of recon, water drops and extraction of equipment as needed.

A portion of the Pacific Crest Trail remains closed with a reroute for hikers.

Logging Unit Operations Summary:

Yesterday, firefighters assigned to the Logging Unit Fires assisted the Warm Springs Agency firefighters with an initial attack near Shitike Creek.

The Skyline and Haily Butte Fires are in patrol status; firefighters are busy backhauling equipment today. Crews will continue with hose lays and mop up efforts on the Logging Unit/Camas Prairie and Bear Butte 2 Fires, utilizing air support as needed. A contingency line is being prepared (J-100/J-170/J-200 road systems).

Confederated Tribes of Warm Springs Road & Area Closures:

Closures that apply to public with the exception of local residents:

- B-180/Hwy 26 Jct
- B-160/Hwy 26 Jct
- B-140/Hwy 26 Jct

Closures that apply to all public:

- B-160 near the B-165 Jct
- County Line Rd at the end of the pavement
- J-100 at the Tenino Rd/J-100 Jct

Area Closures:

Log Unit/Camas Prairie Fire Closure

Northern Boundary: From the W-100/W-200/B-200 Jct, west on the W-200 to the W-240 to the S650 to the Reservation boundary.

Eastern Boundary: From the W-100/W-200/B-200 Jct, south on the B-200 to the B-200/B-210 Jct (Trout Lake Rd).

Southern Boundary: From the B-200/P-500/B-210 (Trout Lake Rd) Jct west to Trout Lake.

Bear Butte 2 Fire Closure:

All areas south of Whitewater Canyon to Jefferson Cr/Reservation Boundary.

Logging Unit Fires: Located on Warm Springs Agency approximately 25 miles NW of Warm Springs. Fire is burning in mixed conifer above 3800 feet and ponderosa pine below 3800 feet and grass & brush at lower elevations. **Started:** July 16, 2014. **Cause:** Lightning caused. **Location:** Western boundary of Confederated Tribes of Warm Springs lands.

SAFETY CONCERNS: Conditions are changing, assess and observe from varying vantage points; situational awareness is very important with the changing weather conditions. Firefighters are advised to be aware of chain reactions when dealing with snags. Safety is paramount when driving; please slow down and be on the watch for wildlife..

RESOURCE CONCERNS: Main concerns include the threat to commercial timber and natural resources on Warm Springs lands, including old growth trees, pristine spring chinook runs, water quality, wildlife, plant and cultural concerns.

WEATHER: Above normal temperatures and poor relative humidity recovery will keep conditions very dry over the area. Continued warming expected with temperatures in the high 80's and winds out of the SE at 5-8 mph gusting to 10 mph. Relative humidity between 17-23%. There is a potential of isolated high-based thunderstorms later today. Haines Index of 5 (indicates unstable conditions in the atmosphere that encourages active fire behavior) is likely. Monsoonal moisture will begin to move into the region on Monday with increasing chances for isolated thunderstorms through Friday.

TODAY'S EXPECTED FIRE BEHAVIOR: The forecasted weather and drying of fuels will provide a test for the fire perimeter today, with a potential for reburn in unburned islands, as well as in areas of scorched fuels. Isolated single and small group torching of trees can be expected mid-afternoon as humidity comes down and the atmosphere becomes unstable.

COOPERATING AGENCIES & PARTNERS: Warm Springs Agency, Bureau of Indian Affairs, Mt Hood National Forest, Deschutes National Forest, Willamette National Forest and Prineville Bureau of Land Management, Oregon Department of Transportation.
