**PUBLIC UTILITY DISTRICT NO. 1 OF OKANOGAN COUNTY**

# Okanogan PUD

## Public Service Announcement

August 31, 2015

Power has been restored to all but 55 customers affected by the Okanogan Complex Fires. The Okanogan PUD and mutual aid crews continue to work long hours to restore power and our goal is to have power to customers that can have power by this Friday. We have confirmed that 785 poles and 216 miles of distribution line have been burned by the Okanogan Complex Fire. We believe those numbers will increase as we finalize our assessment.

Okanogan PUD has released Okanogan Complex fire related maps of the Okanogan PUD electric system and outages involved within our service area. Additionally, these maps include an outline of the fire in relationship to the transmission and distribution lines within our electric infrastructure. Conditions, borders and data change daily and these maps may not contain all the systems within our boundaries, but display the general infrastructure involved. These maps are available on our website at [www.okanoganpud.org](http://www.okanoganpud.org).

We are still experiencing an active fire situation. Please be aware of your situation, monitor evacuation levels and check on neighbors who may not have received notification. For customers that have been affected by the fire or to report outages or downed lines, please call 509-422-3310.
